Welcome

darc is the only international magazine focused on decorative lighting in architecture and interior design.

The specification of decorative and design lighting in hospitality, leisure, commercial and residential environments by interior designers, architects and lighting designers is a growing phenomenon worth millions of pounds on an international scale. Advances in technology and design processes have lead to a boom in the amount of product designers getting involved in decorative lighting, which has lead to a surge in the amount of products on the market and projects being completed.

darc emerged in October 2012 and has continued to grow at a fast pace ever since. It focuses on the best quality projects and products and hears from those at the forefront of creative design.

Apart from the beautifully presented magazine, darc has a strong online presence through a dedicated website, regular newsletters, darc TV and social media. Alongside this, the team organises the annual [d]arc awards - celebrating the best in lighting and LiGHT 22 - a dedicated lighting specification event.

Print

darc's publishing ethos is "on paper, on purpose".
We are proud of our high quality printed magazine and this is our focus.

The famous budgeting strategy "on paper, on purpose" is equally as applicable to publishing when it comes to high quality design magazines.

darc isn't a newspaper where snippets of news are easily Googled online. darc also isn't a low quality B2B publication that doesn't hold the interest of influential designers.

Published six times a year (including 3d, the decorative design directory), darc delivers insight into inspirational interior projects where the physical form of the fixtures actively add to the aesthetic of a space.

We deliver darc to the desks of thousands of interior designers, architects, lighting designers, specifiers and product designers all over the world.

Because they are designers, they appreciate looking through the well-designed pages, the beautiful editorial photography, as well as reading the well-informed articles.

They want to read darc and look forward to it being delivered. By associating your brand with darc you will be tapping into the intellectual and prestigious space that is occupied by a high quality design magazine and high quality designers.

As well as producing in-depth articles on lighting design across international hospitality, commercial and high-end residential projects, other editorial opportunities available to clients in darc include designer profiles, product focuses and 'how-it's-made' materials features.

Online

darc's online offering provides bespoke news and special features supported by regular e-newsletters direct to designers' inboxes.

darcmagazine.com

darc's website is not just an online replica of the magazine, instead it delivers news content of a more immediate nature. This is delivered in a visually appealing, easy-to-digest format with the addition of high quality pictures and video content.

Digital edition & app

darc is also available as a digital edition online (via our website) and as an app (from the App Store and Google Play). Benefits of this include: the immediate delivery to all readers wherever they are in the world; the ability to search the magazine for relevant information; bookmarking of important articles; and an online archive of previous issues. All adverts placed in the print edition of the magazine also appear in the digital editions.

Newsletter

darc's website is supported by a monthly email newsletter distributed to a database of 14,000+ readers. Each 'design line' carries announcements of the latest industry news, product launches, interviews and design events.

Social Media

darc's instagram following is consistently growing in numbers and engagement each month - attracting key designers with an interest in decorative lighting, interiors and design. Our instagram feed / stories reflects the high quality content of the magazine and provides a source of inspiration for designers, as well as direct links to products. The content is regularly maintained and is an important add-on to the magazine.

3D - Decorative Design Directory

The **decorative design directory (3d)** is the ultimate worldwide listings edition for the decorative lighting industry. Published every summer, it is distributed to our subscription base and is also available at every major design show where darc participates.

3d features a comprehensive directory of decorative lighting manufacturers, distributors and showrooms as well as information on international tradeshow; interviews and insight from leading figures in the design industry; along with the darc design review, which features the Editor's top picks of product launches from the previous tradeshow season.

Available as a printed publication and in digital format, 3d is a valuable tool for those involved in lighting specification.

We are continually collecting data so if you are interested in being involved, or need to update your listing please contact Stephen Quiligotti on: s.quiligotti@mondiale.co.uk

All data is treated confidentially.

Stand out from the crowd and enhance your listing!

Manufacturers and distributors can increase their visibility in 3d by booking an Enhanced Entry. This includes a logo, a 50-word company description and contact details in bold.

An Enhanced Entry (such as the Gabriel Scott entry shown left) costs £300 or is free for advertisers in the issue.

Testimonials

Lindsey Adelman Studio

"I have been really happy with the recent editorial covering myself and my work - it captured a lot of the reasons why I do what I do. darc magazine truly reaches a global audience, which is great for us because we are often just featured in US-based publications."

John Williams, Director, spaceinvader

"Lighting design is one of the greatest tools any designer has to create mood and aid functionality. No title informs our choices more in this domain than DARC, with its international designer profiles, alerts to new innovations and showcases of the best and most innovative projects around today. darc is a voice of authority we all respect."

Duncan Meering

"I first met some of the darc magazine team at EuroLuce 2017. Since then their whole team have been great to work with. As a lighting designer/maker practising down in Tasmania, Australia, things can be a bit isolated sometimes and have a connection through such a quality magazine as DARC is invaluable to us. DARC has done a range of coverage on my work and done great stuff in keeping our work visible from Tasmania."

Lucie Koldova, Lucie Koldova Studio

"For me, darc magazine is a regular inspiration and showcase of quality across the lighting design scene. The wide range of project lighting featured in the magazine is invaluable, as are the set-ups and lighting applications from around the world. The existence of darc magazine shouldn't be taken for granted and it should be cherished with each new issue."

Jan Volšík, Global Sales & Marketing Director | Vice-Chairman of the Board, Preciosa

"Decorative lighting is so important to the overall design and atmosphere of a space. It's wonderful having a magazine like darc who understands and celebrates this. We've enjoyed working with the team and appreciate their dedication to lighting craft."

Rose Murray, Director, These White Walls

"darc magazine is always an illuminating read. The editorial team skillfully combines intriguing interviews with industry insights that offer fresh perspectives on the vital role of lighting within the design sphere. I very much enjoyed being interviewed for the feature on our studio, which tackled important topical subjects as well as relevant case studies. I am ever-eager for the next issue."

LiGHT22

[d]arc awards

... celebrating the best in lighting design

The **[d]arc awards** is a unique concept utilising **[d]arc media's** reputation as the leading media brand in lighting. In collaboration with creative consultants **Light Collective**, we have created an exciting opportunity for the lighting design community to show off their creativity while celebrating their peers' success.

The winners of the **[d]arc awards** are decided on by votes from independent lighting designers, interior designers and architects, all of which are then invited to attend the official awards party, **[d]arc night** for free (while suppliers have to pay £500 per ticket). This means the designers and specifiers are not bound by an invite from a manufacturer in order to attend. It also means there is room for all designers at the party – not just the senior designers or directors. Junior and intermediate staff, the future senior designers and principals, enjoy the night and involvement. In previous years, **[d]arc night** has attracted 600 attendees, with over 90% of those designers.

Sponsorship

[d]arc awards truly is an international celebration of lighting design excellence, providing an unrivalled platform to promote your company to a rich audience of existing clients. There are opportunities for both architectural and decorative companies to get involved in the event through bar sponsorships or collaborating with high profile lighting design practices to creatively display their products at **[d]arc night**, through a series of light installations. This isn't just a logo on-screen; this is interactive, face-to-face marketing that engages with an audience.

[d]arc sessions

... connecting suppliers with specifiers

A series of events connecting people involved in lighting specification projects around the world, **[d]arc sessions** is an intimate, exclusive event held twice a year in Spring and Autumn at stunning resort locations.

In an era when every business trip must be accounted for, the **[d]arc sessions** pledge is simple: Suppliers will only meet specifiers actively working on international projects. Designed with Covid and a 'new normal' in mind, the event comprises four key elements:

Speed+Sync meetings - suppliers will have a minimum of 15 x 20 minute meetings - pre arranged - with an exclusive, curated list of top international lighting designers, interior designers and architects.

Symposia speaker sessions - thought-provoking content through a series of presentations curated by **[d]arc media**, which can be joined in person at a social distance.

Sustenance breakouts - hardwired for today's fast-changing world and its challenges, the event creates space for guests to meet safely on an intimate scale in beautiful neutral surroundings. **[d]arc sessions** represents a safe and cost effective space to meet with an exclusive list of top specifiers from around the world.

Social celebrations - Meals can be enjoyed communally, in smaller groups or individually, while evening social sessions are relaxed and non-pressured for guests' wellbeing.

"[d]arc sessions exceeded our expectations! It was very well organised, set in a beautiful location and with great attendance of high-profile lighting and interior designers. It was a relaxed event where we were able to get the full designers' attention. We will definitely come back for the second edition!"

Gorazd Malačič

Managing Director, Tokio

"Well done to [d]arc media and Hix for putting together [d]arc sessions – a seriously well organised event connecting industry leaders in lighting design. Some great new partnerships established over a series of informal meetings, lunches and dinners. The beautiful location and sunshine was a bonus."

Darren Orrow, Director at into

BUSINESS DESIGN CENTRE

LiGHT22

... the UK's only dedicated lighting exhibition

The UK has the second largest design industry in the world and is the largest in Europe.

London has seen design-led businesses more than double since 2010. Lighting is a vital aspect of the design industry and the design process.

Of the 217 lighting design practices in the UK, over half (116) are in the Greater London area (source ILDS 2021). This is by far the biggest concentration of lighting designers in one city in the world. And that's not to mention the thousands of interior designers and architects that are based in the UK's capital and beyond. Most of these designers not only specify in the UK but have a significant portfolio overseas, making London the capital of international specification.

Held 22-23 November 2022, **LiGHT 22** is a curated, boutique lighting exhibition for specifiers and designers. Held at the Business Design Centre in Islington, London, **LiGHT 22** will revive the lighting design and specification exhibition that has been lacking for too long.
